

SHAGUFTA KHOSO

AI/ML ENGINEER — DATA SCIENTIST — CLOUD MLOPS

Karachi, Sindh, Pakistan | shaggyjessi@gmail.com

linkedin.com/in/shagufta-jasmine-1774a928b | shagufta-portfolio3.netlify.app | github.com/shaguftajasmine

Summary

Aspiring AI/ML Engineer and Data Scientist graduating June 2026, with hands-on expertise in end-to-end machine learning pipelines, cloud deployment on Microsoft Azure, and MLOps automation. Passionate about AI first digital innovation, with practical experience building and deploying scalable AI applications. Eager to contribute AI-driven and Data Science problem-solving.

Technical Skills

AI & Machine Learning: Scikit-learn, ANN, CNN, RNN, NLP, LLMs, EDA, Feature Engineering.

Data & Analytics: MongoDB, Model Deployment, Data-driven Reporting, REST APIs, Data Cleaning, Power BI, Matplotlib, Seaborn.

Cloud & MLOps: Microsoft Azure (App Service, Azure ML, GitHub Actions CI/CD), Docker, Git/GitHub, Streamlit, FastAPI.

Programming: Python, SQL, Java, JavaScript, HTML/CSS.

Other Skills: Communication, Report Writing, Problem Solving, Analytical Thinking, Time Management.

Education

Bachelor of Science in Computer Science

Sukkur IBA University, Pakistan

Sept 2022 – May 2026

Experience

Data Science Intern (Remote)

Arch Technologies

01 apr 2026 – 30 may 2026

- Building ML models and preprocessing datasets for real-world projects.

Aspire Leadership Program 2026

Aspire Institute

Apr 2026 – june 2026

- Developed communication, networking, leadership, and problem-solving skills.

Teacher (Math, Computer, English)

The Educators Campus

2021 – 2022

- Taught multiple subjects and improved student learning outcomes.

Projects

Fake News Detector — Python, NLP, Scikit-learn, Streamlit

- Built NLP pipeline classifying 68K+ articles with 99.36% accuracy using TF-IDF and Logistic Regression.

Netflix Content Analysis Dashboard — Python, Pandas, Visualization

- Analyzed 8000+ Netflix titles to identify trends, genres, and content insights.

Handwriting Personality Predictor — Python, OpenCV, Streamlit

- Developed real-time personality prediction system using handwriting analysis.

Sales & Marketing Analytics Dashboard — Python, Pandas

- Analyzed 5000+ transactions and identified revenue growth opportunities.

Certifications

- Programming for Everybody (Python)
- Machine Learning with Scikit-learn
- Databases for Back-End Development
- HTML, CSS, and JavaScript Foundations

Leadership & Activities

- Event Organizer – Business Summit and Tech Connect 2024
- Session Lead and Mentor – D-Tech Junior Sessions
- Winner – Book Review Competition
- Stall Organizer – Rozgaar Mela DIY Crafts Competition
